

Shotgun Social Signals Report

*****.com

Thanks again for your order!

We've completed a total of 244 primary social signals and 100 secondary social signals.

Below you will find the breakdown graphs for both.

Primary Social Signals

BEFORE

Facebook Signals: 898

Twitter Signals: 0

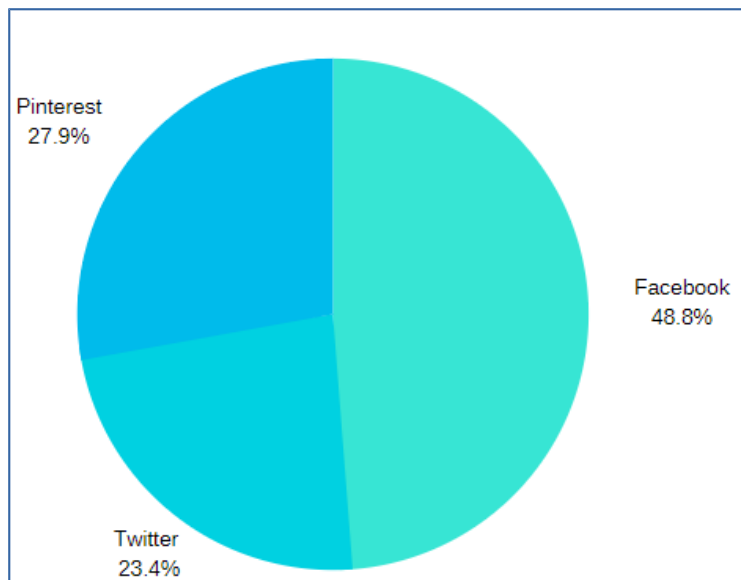

Pinterest Stats: 121

AFTER

Facebook Signals: 1017

Twitter Signals: 57

Pinterest Performance: 189

Please note about Twitter: Unlike the other social platforms, Twitter no longer displays its current social signal stats, as of their November 2015 API update. Fortunately, our system allows us to track the number of Twitter Signals we

deliver during the promotion and we compile them in this report. This is why we refer to the Twitter stats as "0" on the initial report, even though you may in fact be starting with much more than that.

Secondary Social Signals
